

## STAFF TECHNICIAN

**Department:** Testing

**Location:** Littleton, Colorado

**U.S. Citizenship Required for this Position:** Yes

**Clearance Level Must Currently Possess or be Able to Obtain:** Secret

**Travel:** 15%

**Schedule:** Full-time

### **Description of Business Environment:**

Rocky Mountain Scientific Laboratory is an engineering technology and services company made up of scientists and engineers with advanced academic degrees and specialized experience. Our experts possess extensive knowledge and capability in energetic materials and military systems enabling them to offer analytical characterization, modeling & simulation, design, system integration, prototyping, test engineering, and proof-of-concept production services covering a wide range of applications.

RMSL is an Equal Employment Opportunity (EEO), Affirmative Action employer and welcomes all qualified applicants. All qualified applicants will receive fair and impartial consideration for employment without regard to race, color, religion, sex, age, disability, veteran status, national origin or other legally protected status. An applicant with a disability or a disabled veteran can request reasonable accommodation to apply for one of our positions.

### **Specific Job Description:**

This position will report to the Program Manager. The Staff Technician will work with the task leads and other tech personnel to perform testing apparatus and instrumentation setup, material preparation, test execution, and teardown/pack-up. The ideal candidate will have some knowledge of data collection & instrumentation, be able and willing to work outdoors, sometimes long hours, and be able to work well in a small team environment.

### **Duties Include:**

- Experiment setup and execution
- Instrumentation installation, maintenance, and operation
- Laboratory setup and testing of thermal and physical stability of energetic materials
- Field setup and testing of energetic materials
- Fabrication of prototype mechanical and electrical hardware
- Assistance with company compliance in restricted information security regulations
- Assistance with company compliance in explosive storage and handling regulations

### **Required Skills:**

- Computer literate with Microsoft Office software experience
- Excellent verbal and written communication skills
- Physical requirements:

- Must be able to sit for extended periods of time; must be able to lift up to 25 lbs.; must have the ability to see near and far and work with a computer monitor on a daily basis
- Required to bend, sit, stand and lift to perform job effectively
- Must be able to work overtime as required

**Desired Skills:**

- Familiar with dynamic testing environments (high-speed measurement)
- Hands-on experience with energetic materials
- Knowledge and proficiency with high-speed photography
- Experience in instrumentation/data collection

**Minimum Qualifications:**

- Associate's degree in a technical area (e.g. electronics)
- US Citizenship
- Ability to obtain security clearance

**Disclaimer:** The above statements are intended to describe the general nature and level of work being performed by people assigned to this classification. They are not to be construed as an exhaustive list of all responsibilities, duties, and skills required of personnel so classified. All personnel may be required to perform duties outside of their normal responsibilities from time to time, as needed.

We offer a competitive compensation and benefits package and a dynamic, team oriented, and fun environment. Some on-the-job training is provided; compensation and title contingent upon experience. If you are interested in knowing more about this great opportunity, please send a resume and cover letter expressing why this role may be suitable for you along with salary requirements to: [jobs@rmsl.net](mailto:jobs@rmsl.net).
